**Original artist: Louise Mandrell**

**Louise Mandrell** (born July 13, 1954 in Corpus Christi, Texas) is an American country music singer. She is the younger sister of Barbara Mandrell. Louise however, had a successful Country career of her own having a string of hits in the 1980s. Working with her sister, Louise played guitar and bass, in the 1970s, in the Mandrell Family Band. In 1979 Louise's own career took off and – in the same year - she met and married Country singer R.C. Bannon, who wrote this song.

We are very pleased to be able to present the exceptional talent of Lone Blume, from Denmark, on this recording. Lone had originally recorded a vocal for this track when Doug Bennett first created the music; the original intention being to release it as a Global Music release. Lone, very graciously, agreed to allow us to use her vocal, for which we are extremely grateful. The music is of the highest quality and is true to the style of the original – it's a super song and will be a real "crowd-pleaser" at a dance!

### **Where, When and Who produced the music:**

I am very happy to tell you that the music for this release was created and recorded – as a special commission – by our very good friend Doug Bennett of Global Music Productions.

When Paul Bristow took over production of new music, at the start of the new millennium, Doug offered to provide any assistance that we needed.

Usually we record in Nashville, once a year in September (or later), which can delay the production of new tunes – some of which require a "faster" production. Doug has much easier access to musicians, at short notice, than we do – so his offer was very helpful, when needed a "quick" turn-a-round.

Doug's musical production is based on extensive discussions with us and is at the direction of Paul Bristow; in some cases together with the artist that originally suggested the tune and who will record the vocal. We specify the instrumentation that we would like and Doug acts as the "Studio Director".

I believe that we manage to take the excellent sound of Global and combine it with the musical ideas of Sting and Snow to achieve some pretty fantastic results!
